Education

Cybersecurity Program | University of Oregon Continuing and Professional Education 2023
Bachelor of Science in Business Administration | Humboldt State University 2020

Projects / Labs

Secure Home Network & Cybersecurity Lab |  2025

- Designed and implemented a security-focused home network with segmented VLANs for daily use and cybersecurity testing
- Configured firewall rules, NAT, VPN tunnels, and isolated subnets to secure environments

Web Application Deployment & Cloud Security |  2023

- Deployed a PHP web app in Azure using containers, routing SSH to a jumpbox and HTTP traffic to a load-balanced backend pool
- Secured the app with Key Vault, SSL/TLS certificates, Front Door, WAF rules

Custom Security Monitoring Environment (Splunk SIEM) |  2023

- Built a monitoring environment to analyze log data for detecting abnormal login activity and security events
- Created dashboards, alerts, and reports to visualize trends and respond to suspicious activity

Experience

Database Migration Project | CASA-VFC, Corvallis, OR Sep 2024 – Oct 2024

- Migrated ~2,800 confidential case and program records across three repositories, ensuring data accuracy, compliance, and accessibility
- Improved organizational workflows by ensuring all users could reliably locate case files, creating a shared system of record organization

Teller—Member Services Specialist | OnPoint Credit Union, Portland, OR May 2021 – Aug 2022

- Assisted members with account issues, disputes, and payment setups, ensuring accurate service and clear communication
- Investigated potential fraud, documenting findings to support analysis and reporting
- Processed high volumes of daily transactions, maintaining balanced cash drawers, vaults, and compliance with financial policies

End of Day Operations Specialist | Los Bagels Co., Arcata, CA Oct 2017 – Apr 2020

- Reconciled daily sales, balanced store and office safes, and prepared financial reports to ensure accuracy and compliance
- Managed deliveries, returns, and weekly route schedules, improving efficiency while meeting deadlines independently

Service-Oriented Roles | Various Employers 2016 – 2024

- Provided support, order fulfillment, and operational services across food, retail, and service environments
- Built adaptability, problem-solving, and communication skills while meeting deadlines in fast-paced roles
